Mustang Dark Horse R Wheel Studs Maintenance

Due to frequent removal and installation of wheels and high loading of these joints accelerated fatigue can occur.

Action: It is recommended to replace wheel studs with a new set of wheel studs every four race weekends.

Part Description	Part Number	Quantity
Front Wheel Stud M14x85	10-0119	10 pcs
Rear Wheel Stud M14x55	10-0042	10 pcs

Note: Wheel nuts should always be properly tightened and torqued to 122 N-m.
